11. Considered the augmentation of the office menial establishment.

Resolved that two additional peons be entertained.

12. Discussed the present state of the main road and held that the repairs have recently been most ineffectively carried out due chiefly to failure to thoroughly pick the old roads up, to insufficiency of metal, and to stinting gravel and sand.

Resolved that the attention of the Executive Engineer be drawn to these defects and that he be further asked to see that the repairs are better sloped off into the road as the present sudden excrescences formed in the road by the repairs were a source of real danger to horse traffic.

13. Considered a suggestion to obtain a piece of land for a model bakery and dairy.

Resolved that Mr. T. Richards, Superintendent, Nundidrug Company be asked to give a piece of land for the purpose somewhere opposite the Kolar Gold Fields School House.

Resolution.—Passed for submission to Government.

II. Read the list of District Fund incomplete works of the Hassan District for the year 1904-05.

Resolution.—Passed with the following observations :—

Well near Chikmallenahalli musafirkhana.—As water in the well has dried up, it is necessary to provide for a revised estimate for deepening it, together with completion of the parapet wall, etc., and the same should be called for, for Government sanction being obtained, the extra cost being met out of the provision of Rs. 225 provided for sinking a well at Chikkadlur, which may be deferred.

Hittalaldahalli well.—As a portion of this well collapsed, it is necessary to provide for a revised estimate, which may be met out of Rs. 888 provided for "incomplete and other works."

Rajansiriyur well.—As there are two contradictory measurements in the bill, dated 21st April 1905, and the subsequent bill prepared by the Work Inspector, D. Krishnappa, the Senior Assistant Commissioner may be requested to have the well work measured in his presence and after recording the explanations of the Amildar (Mr. S. Krishna Iyer) and the previous Work Inspector (Kuppusami Mudaliar) to report the correct measurements of work done by the raiyats and the contractor respectively, with his opinion as to the amount that may be paid to the contractor.

Hirihalli Koppal well.—A revised estimate for Rs. 276 was sanctioned at the last meeting of the Board, the excess of Rs. 34 has to be met from Rs. 888 provided for incomplete and other works.

V. Read Government Proceedings, No. 2180-9—San. (37-05)-3, dated 30th August 1905, ordering that the pay of Sanitary Inspectors employed in the taluks on frontier protection, should be charged one-half to the Plague Funds, so long as they exist, and the other half to the District and Municipal Funds, in equal proportions.

Resolution.—Recorded.

VI. Read Government Proceedings No. 2598-609—San. (70-05)-2, dated 11th September 1905, modifying for a period of six months, the rule requiring that Sanitary Inspectors should pass the Engineering branch before they are employed, provided that the applicants are sent to the Mysore Engineering School for the requisite training instead of to Madras.
